Genomic context AMP_138200_c2_g1_i1

Phocaeicola dorei strain JR02

Bacteroides salyersiae strain WAL7960

Phocaeicola dorei strain 2 plasmid unnamed

Gene

- | |
|--|
| AMP |
| DUF1566 domain-containing protein |
| DUF1738 domain-containing protein (Fragment) |
| DUF2589 domain-containing protein |
| DUF3575 domain-containing protein |
| DUF5119 domain-containing protein |
| Exo-poly- α -D-galacturonidase |
| Fic family protein |
| Fido domain-containing protein |
| Fimbrillin family protein |
| GLUG domain-containing protein |
| Helix-turn-helix transcriptional regulator |
| histidine kinase |
| HTH araC/xylS-type domain-containing protein |
| Protein SirB1 N-terminal domain-containing protein |
| Resolvase/invertase-type recombinase catalytic domain-containing protein |
| Uncharacterized protein |
